

Digital Underwater Photographer course

The PADI Digital Underwater Photographer and Underwater Photographer Courses

Underwater photography is one of the most popular diving specialties, and the rise of digital underwater photography has made it easier and more fun than ever. This is why there are actually two PADI underwater photography courses. The PADI Digital Underwater Photographer course gets you going quickly with today modern digital equipment, whether you use a point-and-shoot snap camera or a sophisticated D-SLR like the pros. The PADI Underwater Photographer course is a more traditional photography course designed for conventional film equipment.

The Fun Part

It's a great way to relive the adventures you've had. Plus capture images to share with your friends and family.

What You Learn

- How to choose the right underwater camera system for you
- The PADI SEA method for getting great shots quickly
- The three primary principles for good underwater photos

To purchase learning materials and equipment, contact your local PADI [dive shop or resort](#)

Your Next Adventure

Two excellent specialties to pair with underwater photography are the PADI [Enriched Air Diver](#) course, on your way to PADI [Master](#)

[Scuba Diver](#) The PADI Enriched Air Diver course allows you to extend your time underwater so you have more time to capture images.

You may also find the [Peak Performance Buoyancy](#) course gives you helpful tips to optimize your weighting and skills so you'll be in better position to capture that perfect picture.
